Virtual Computer Services: Citrix Receiver for Android

To Install Citrix Receiver

1. Open Google Play Store and then tap the search icon.

2. Search for Citrix Receiver for Android and then select INSTALL.
3. Accept the agreement > Open the Citrix Receiver App > Select Add Account

4. Enter the following information:

   ➔ **Address:** https://vcs.med.ualberta.ca
   ➔ **Description:** will automatically populate, however you can change it to FoMD
   ➔ **User Name:** your med username
   ➔ **Password:** med password
   ➔ **Domain:** med.ualberta.ca
5. Select VirtualComputerServices then Windows 7 as your virtual machine.

6. Your virtual machine should open up as pictured below, however depending on the Android device being used things may view differently.
