Virtual Computer Services: Citrix Receiver for iOS

To Install Citrix Receiver

1. Open the App Store and then tap the search icon.

2. Search for Citrix Receiver and then tap GET.
3. When Citrix Receiver installation is complete, tap **Add Account**.

4. Enter the **Address**: https://vcs.med.ualberta.ca, tap **Next**.
5. Enter your MED User Name, MED Password, and Domain: med.ualberta.ca

6. Tap VirtualComputerServices under the Select a Store section and then tap Save.
7. You have now successfully installed and configured the Citrix Receiver for Virtual Computer Services. Now it’s time to launch your virtual desktop! Tap **Windows 7** to begin.

Note: Some users have access to multiple virtual desktops and will see several icons. Tap the icon corresponding to the virtual desktop that you’d like to begin using.
To Uninstall Citrix Receiver

1. Press and hold the Citrix Receiver icon until an X appears on the upper-left corner of the icon. Tap the X and then tap Delete to confirm.
